Effective Date: Jan. 01, 2025 Ref. No: LV-CR250101M

MATERIAL SAFETY DATA SHEET(MSDS)

1. Chemical product and company Identification

Applicant	:	Shenzhen Lidea, Battery Co., Ltd.
Address	:	3/F, No.5 Biog., Houhai zufa Tech. Park, No. 8, Zhenxing Rd.,
		Loucun, Gegiming Guangeing, Shenzhen, China. ZIP: 518106
Sample name	:	3.0V Litl in Meta Litter
Model	:	CR632、CR927、CR1025、CF1130、CR1212、CR1216、CR1220、CR1225、
		CR1612、CR1616、CR1920、CR1625、CR1632、CR1654、CR2016、
		CR2020、CR2025、CR2032、CR2032H、CR2050、CR2320、CR2325、
		CR2330、CR2335、CR2354、CR2412、CR2430、CR2450、CR2477、
		CR2477T、CR3032
Telepone number	:	+86-755-2517 9975
Fax number	:	+86-755-2517 9976
Emergency telephone	:	+86-755-2517 9975
Email	:	sales@lideabattery.com

2. Hazards Identification

GHS Classification	: Not applicable
Toxicity	: Vapor generated from burning batteries, may irritate eyes, skin and throat .
Hazard	: Electrolyte and lithium metal are inflammable.
	Risk of explosion by fire if batteries are disposed in fire or heated
	above 100 degrees C.
	Stacking or jumbling batteries may cause external short circuits,
	heat generation, fire or explosion.

3. Composition/Information of Ingredients

Component	Material	CAS No.	EC No.	Content (%)	
Positive electrode	Manganese dioxide	1313-13-9	215-202-6	12~50	
Negative electrode	Lithium metal	7439-93-2	231-102-5	0.5~6	
	1,2-dimethoxyethane	110-71-4	203-794-9	1.5~3.5	
Electrolyte	Lithium Perchlorate	7791-03-9	232-237-2	0.2~0.7	
	Propylene Carbonate	108-32-7	203-572-1	2.5~7	
Others	Stainless Steel	12597-68-1		30~85	
(Steel or Plastic parts)	Polypropylene	9003-07-0		0.5~10

CR1220	0.01	CR2016	0.02	CR2335	0.09		
CR1225	0.015	CR2020	0.035	CR2354	0.17		

4. First Aid Measures (in case of electrolyte early from the battery)

Eye contact	: Flush the eyes with plenty of clean water for at least 15 minutes
	immed ately, with rubbing. Get immediate medical treatment. If
	appropriate procedures are not taken, this may cause eye injury.
Skin contact	: Wash the contact areas off immediately with plenty of water
	and soap. If appropriate procedures are not taken, this may
	cause sores on the skin.
Inhalation	: Remove to fresh air immediately. Get medical treatment immediately.

5. Fire Fighting Measures

Fire extinguishing agent	: Alcohol-resistant foam and dry sand are effective.
Extinguishing method	: Be sure on the windward to extinguish the fire, since vapor may make eyes,
	nose and throat irritate, Wear the respiratory protection equipment in
	some cases.

6. Accidental Release Measures (in case of electrolyte leakage from the battery)

Take up with absorbent cloth, treat cloth as inflammable.

Move the battery away from the fire.

7. Handling and Storage

Handling:

- When packing the batteries, do not allow battery terminals to contact each other, or contact with other metals. Be sure to pack batteries by providing partitions in the packaging box, or in a separate plastic bag so that the single batteries are not mixed together.
- Use strong material for packaging boxes so that they will not be damaged by vibration, impact, dropping and stacking during their transportation.
- Do not short-circuit, recharge, deform, throw into fire or disassemble.
- Do not mix different type of batteries.
- Do not solder directly onto batteries.

 SHENZHEN LIDEA BATTERY CO., LTD.

 No. 5 Bldg., Houhai Xufa Tech. Park, No. 8 Zhenxing Rd., Ioucun, Loucun Community, Xinhu Sub-district, Guangming District, Shenzhen City, Guangdong Province, China.

 +86-755-2517 9975

 +86-755-2517 9976

Insert the battery correctly in electrical equipment.

Storage:

- Do not let water penetrate into packaging boxes during their storage and transportation.
- Do not store the battery in places of the high temperature or under direct sunlight
- Please also avoid the places of high humidity. Be sure not to expose the battery to condensation, rain or frozen condition.

8. Exposure Controls and Personal Protection

Acceptable concentration: Not specified about Lithium Battery.Facilities: Nothing in particular.Protective Equipment (in case of electrolyte leakage from the battery)Respiratory Protection: For most condition no respiratory protection.Hand Protection: Safety glove.Respiratory Protection: Safety glove.

9. Physical and Chemical Properties

Appearance	: Coin shape
Voltage	: 3 V

10. Stability and Reactivity

Since batteries utilize a chemical reaction they are actually considered a chemical product.

As such, battery performance will deteriorate over time even if stored for a long period of time without being used. In addition, the various usage conditions such as discharge, ambient temperature, etc. are not maintained within the specified ranges the life expectancy of the battery may be shortened or the device in which the battery is used may be damaged by electrolyte leakage.

11. Toxicological Information

Swallowing can lead to chemical burns, perforation of soft tissue, and death. Severe burns can occur within 2 hours of ingestion. Seek medical attention immediately.

12. Ecological Information

In case of the worn-out battery was disposed in land, the battery case may be corroded, and leak electrolyte.

However, there is no environmental impact information.

Mercury (Hg), Cadmium (Cd) and Lead (Pb) are not used in cell.

13. Disposal Considerations

When the battery is worn out, dispose of it under the ordinance of each local government.

SHENZHEN LIDEA BATTERY CO., No. 5 Bldg., Houhai Xufa Tech. Park, No. 8 Zhenxing Rd., loucun, Loucun Community, Xinhu Sub-district, Guangming District, Shenzhen City, Guangdong Province, China. 0 sales@lideabattery.com # www.lideabattery.cn/www.lideabattery.com

+86-755-2517 9975 +86-755-2517 9976

14. **Transport Information**

During the transportation of a large amount of batteries by ship, trailer or railway, do not leave them in the places of high temperatures and do not allow them to be exposed to condensation.

During the transportation do not allow packages to be fallen down or damaged.

Proper shipping Name	: Lithium metal batteries.
----------------------	----------------------------

IMO/IMDG

: not regulated.

UN Number, UN Class

: UN3090, Class9 (for the Air transport by PI968 Section IA or IB) : Exemption (for the Marine transport SP188 and the Air transport by

Section II of PI969 or 970).

Even though the cells are classified as lithium metal batteries

(UN3090 or UN3091), they are not subject to some requirements of

Dangerous Goods Regulations because they meet the following:

- 1. For cells, the lithium content is not more than 1g;
- 2. Each cell is of the type proven to meet the requirements of each test in the UN Manual of Tests an Criteria, PartIII, sub-section 38.3.
- 3. Each cell is manufactured in ISO9001 certified factory.

Please refer to the for ving reference information about concrete ways of transportation. Actual content of packaging label and shipping documents varies by shipping companies. Make sure to confirm in advance with your shipping company.

15. Regulatory Information

- IATA Dangerous Goods Regulations 66th Edition (IATA DGR)
- IMO International Maritime Dangerous Goods Code 2022 and 2024 Edition (IMDG Code)
- UN Recommendations on Transportation of Dangerous Goods, Model Regulations
- UN Recommendations on Transportation of Dangerous Goods, Manual of Tests and Criteria
- EU Battery Directive (2006/66/EC, 2013/56/EU)
- EU Battery Regulation (Regulation (EU) 2023/1542 of the European Parliament and of the Council)
- Regulation (EC) No. 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)
- Act on Preventing Environmental Pollution of Mercury (China)

16. Other Information

This MSDS is provided to customers as reference information in order to handle batteries safely. It is necessary for the customer to take appropriate measures depending on the actual situation such as the individual handling, based on this information.
